

? no air, little bit of popcorn, couldb maybe dig NGL

Evac Room

Run to the Entrance

? gets TT on chest sideways but looks like turns left and gets bigger. Wouldn't take long to open up. Did not notice much air. Smells like urine

lots of bat bones on ceiling, prob floods to ceiling

? 1T 2W can keep chest mostly dry, was a faucet during flood pulse

cave crickets in canyon

mud flood line at 3 ft and debris at 5 ft

? tight canyon lead

? tight canyon

? very tight canyon technical dig NGL

? under canyon continues to the right, has air

climbdown

bat varnish on walls

cave harvestman in lower canyon

? canyon probably goes to dome and verry tight

? high lead 20 ft up, bomber rock, decent

? tight canyon, requires technical digging, probably NGL

Batwurst Canyon

bat varnish on walls

? hole at bottom of canyon goes to rimstone pools

? in-feeder flowing during flood pulse

? climbdown connects to other hole

? climbdown connects to other hole

? continues as canyon, Ashley saw orb weavers

? goes to small room with dig lead heading NE

? goes to small room

Entrance

GD79 Sausage Cave

25 ft

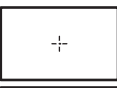

Length: 800 ft

Depth: 142 ft
